#### **CURRICULUM VITAE**

**DATE:** Sept. 2021

NAME: Mark C. Siracusa

PRESENT TITLE: Associate Professor, Chancellor Scholar Director of the Research Support Core

OFFICE ADDRESS: Cancer Center, G1226 205 S. Orange Ave. Newark, NJ 07103

TELEPHONE NUMBER/E-MAIL ADDRESS: p. 973-972-1265

mark.siracusa@rutgers.edu

#### **CITIZENSHIP: USA**

#### **EDUCATION**:

 A. Undergraduate

 Merrimack College

 N. Andover, MA

 BSc (Biochemistry)

 May 2000

B. Graduate and Professional Johns Hopkins Bloomberg School of Public Health Baltimore, MD PhD (Molecular Microbiology & Immunology) Sept. 2008

#### **POSTGRADUATE TRAINING:**

- A. Internship and Residencies N/A
- B. Research Fellowships N/A
- C. Postdoctoral Appointments University of Pennsylvania, Perelman School of Medicine Mucosal Immunology Mentor, Dr. David Artis Oct. 2008 – April 2014

#### MILITARY: N/A

#### ACADEMIC APPOINTMENTS:

Department of Medicine Rutgers New Jersey Medical School Associate Professor, Chancellor Scholar Director, Research Support Core April 2021 – present

Department of Medicine Rutgers New Jersey Medical School Assistant Professor, Chancellor Scholar June 2014 – April 2021

### HOSPITAL APPOINTMENTS:

N/A

## OTHER EMPLOYMENT OR MAJOR VISITNG APPOINTMENTS: N/A

## PRIVATE PRACTICE

LICENSURE:

N/A

### DRUG LICENSURE:

N/A

#### **CERTIFICATION:**

N/A

# MEMBERSHIPS, OFFICES AND COMMITTEE ASSIGNMENTS IN PROFESSIONAL SOCIETIES:

American Association of Immunology, Member (Dec 2008 – present) The Society for Mucosal Immunology, Member (Dec 2015 – present)

#### HONORS AND AWARDS:

The Hegner, Cort Root Honorary Fellowship (2004) NIH T32 Training Grant (2006) AAI Trainee Abstract Award (2013) K22 Career Transition Award (2014) Rutgers Biomedical and Health Sciences Chancellor Scholar (2014) AAI Trainee Abstract Award (2014) AAI Early Career Faculty Award (2015) AAI Early Career Faculty Award (2016) The New Jersey Health Foundation Excellence in Research Award (2020)

#### **BOARDS OF DIRECTORS/TRUSTEES POSITIONS:** N/A

#### SERVICE ON NATIONAL GRANT REVIEW PANELS, STUDY SECTIONS, COMMITTEES:

NIH Human Immunology Consortium Study Section. 2016 – 2018 (AdHoc) NHCBI Program Project Grant Study Section. 2018 (AdHoc) NIH Innate Immunity and Inflammation (III) Study Section. June 2019 (AdHoc) NIH Innate Immunity and Inflammation (III) Study Section. March 2021 (AdHoc) NIH Innate Immunity and Inflammation (III) Study Section. Oct. 2021 (AdHoc)

#### **SERVICE ON MAJOR COMMITTEES:**

- A. International N/A
- B. National *N/A*
- C. Medical School/University

*Rutgers I3D Retreat Organizing Committee (Dec 2016 – present).* One of several faculty members that assists with determining the list of invitees, evaluates submitted abstracts and assists with the selection of oral presentations and posters for our bi-annual I3D Retreats.

*Genomics Core Search Committee (Dec 2017).* Participated in the search and evaluation of qualified candidates to fill a full-time bioinformatics position to support the cores growing needs.

*Microbiology Search Committee (Dec 2017).* Participated in the search and evaluation of qualified candidates to fill an assistant professor position for an ultrastructural biologist.

*Flow Cytometry Oversight Committee (Dec 2017 – present).* Participate as a faculty representative that evaluates the Flow Cytrometry Core's performance, budget, staffing, pricing structure and equipment needs. I am also responsible for bringing faculty needs and complaints to the committee.

*Admissions Committee (Nov 2017 – present).* One of several faculty members that evaluate prospective students applying to Rutgers Biomedical Health and Sciences programs. Responsibilities include screening submitted applications, choosing applicants to interview, reviewing faculty evaluations of interviewed candidates and deciding those students that will be accepted.

*Gnotobiotic User Committee (March 2017 – present).* As a founding member of this committee I have worked closely with Rutgers Office of Research and Economic Development to establish a Gnotobiotic facility. Responsibilities include choosing and purchasing equipment, evaluation of staffing, determining workflows and standard operating procedures, establishing pricing structures and advertising to potential users.

*Biomedical Advisory Committee (March 2017 – present).* As a faculty member on this committee we work closely with Rutgers Office of Research and Economic Development and Animal Use and Care Committee to evaluate the operations of all Rutgers vivariums. Responsibilities include evaluating budgets, staffing, subsidy rates, per diem rates and establishing standard operating procedures for all vivariums. I am also responsible for bringing faculty needs and complaints to the committee.

*Rutgers Medical Science Building Renovation Committee (March 2017 – present).*). As a voting member of this committee I was responsible for evaluating the plans of various architecture firms in response to the Request for Proposal for the \$200M renovation of Rutgers Medical Science Building (MSB). I also attend bi-weekly meetings to evaluate and give input on floor plans, the feasibility of construction and how it will affect faculty and ongoing research and provide input on how improvements to the building must reflects Rutgers commitment to academic and research excellence.

*Genomics Core Oversight Committee (Dec 2018 – present).* Participate as a faculty representative that evaluates the Genomics Core's performance, budget, staffing, pricing structure and equipment needs. I am also responsible for bringing faculty needs and complaints to the committee.

*COVID-19 Research Alliance Steering Committee (April 2020 – present).* The responsibilities of this steering committee are to assists with the distribution of resources and aligning collaborators at Rutgers to more efficiently advance COVID-19-realted research.

*COVID-19 Animal Model Subcommittee (April 2020-present).* The responsibilities of this steering committee were to assist with the design and development of novel murine model systems to study COVID-19. Once these mouse models are available, committee members will evaluate faculty requests, coordinate the distribution of mice and determine a pricing structure for these services.

- D. Hospital (N/A)
- E. Department (N/A)
- F. Editorial Boards (N/A) Guest Editor (Frontiers in Immunology, 2019-present)
- G. AdHoc Reviewer

(Science Immunology, 2019-present)
(Clinical and Experimental Immunology, 2020-present)

#### SERVICE ON GRADUATE SCHOOL COMMITTEES:

Admissions Committee (Nov 2017 – present)

#### SERVICE ON HOSPITAL COMMITTEES: N/A

#### SERVICE TO THE COMMUNITY: N/A

#### SPONSORSHIP (Primary Mentorship) OF CANDIDATES FOR POSTGRADUATE DEGREE:

Everett Henry, PhD – graduated 2019 Chandler Sy, MD/PhD – graduated 2019 Juan Manuel Inclan Rico, PhD – graduated 2020 Emily Baron (MSc candidate) Christina Hernandez (PhD candidate) John Ponessa (PhD candidate) Hannah Federman (PhD candidate)

#### SPONSORSHIP (Primary Mentorship) OF POSTDOCTORAL FELLOWS:

Jianya Peng (Postdoc) 2019-present

#### **TEACHING RESPONSIBILITIES:**

Lectures or Course Directorships

University of Pennsylvania, School of Veterinary Medicine, Microbiology, Virology Parasitology, 1.5 hour discussion groups. (2010-2014)
University of Pennsylvania, School of Veterinary Medicine, Immunology, Mucosal Immunology 1 hour lecture. (2013-2014)
NJMS, Advanced Concepts in Infection, Immunity and Inflammation, 2 hour lecture. (2014-present)
NJMS, Critical Readings, in Infection, Immunity and Inflammation, (3) 1.5 hour discussion groups. (2014-present)
NJMS, Infections and Host Response, Tolerance and Autoimmunity, 1 hour lecture. (2015-present)
Woods Hole Biology of Parasitism Course, Protective immunity to helminth parasites, 3 hours of lectures and 1 day of lab mentoring. (2017)
University of Pennsylvania, School of Veterinary Medicine, Type 2 Immunity, Parasitology, 1 hour guest lecture (2020)

Research Training (other than Primary Mentorship)

Grand Rounds: Department of Medicine (2016) Allergy and Immunology (2016) Allergy and Immunology (2018) Allergy and Immunology (2019) Allergy and Immunology (2021)

Rutgers Pre-Doctoral Students: Sai Zhang, thesis committee (2014-present) Constance McElrath, thesis committee (2015-present) Orchi Dutta, thesis camaraommittee (2016-present) Jorge Masso, thesis committee (2016-2018) Mark Palma, thesis committee (2016-2018) Luo Jia, thesis committee (2017-present) Jianya Peng, thesis committee (2017-2020) Hsiang Chi Tseng, thesis committee (2018-present) Katherine Lothstein, thesis committee (2018-present) Jihad El-Fenej (2020-present) Samantha Avina (2020-present)

External Pre-Doctoral Students: Montclaire State University, Tamara Kreiss, thesis committee (2019-present)

Masters Students: Kayla Baker, thesis host lab (2017) Mariham Wassef, thesis host lab (2018)

Rutgers Summer Research Program (RBHS): Janmejay Hingu, mentor (2016) Dev Ardeshna, mentor (2017) Roberto Berrios-Rivera, mentor (2018) Alex Rodriguez, mentor (2018)

Rutgers undergraduate summer research: Lauren Kim (2019)

New Jersey Highschool summer interns: Laren Kim (2016) Lauren Aslami (2017) Tyler Man (2017) Lauren Kim (2017)

#### CLINICAL RESPONSIBILITIES: N/A

#### **GRANT SUPPORT:** (Please list newest or most current first)

- A. Principal Investigator (Active)
  - 1. NIH, RO1, 1R01AI151599, (Siracusa contact PI, Artis Co-PI), Neuropeptidemediated regulation of antihelminth immunity (9/17/2020-8/31/2025), \$260,000/year
  - NIH, RO1, 1R01AI131634-01A1, (Siracusa contact PI, Gause Co-PI), Protective and pathologic functions of macrophages induced by helminths (12/1/2017-1/9/2022), \$220,000/year
- B. Co-Investigator

N/A

- C. Pending
  - 1. NIH RO1, (Rivera contact PI, Siracusa Co-PI, Gause Co-PI) Trained immunity: investigating how infection history alters pulmonary outcomes. (Submitted August 2021).
  - 2. NIH RO1 (PI, Siracusa) Enzymatic regulation of pulmonary macrophages. (Submitted June 2021).
  - 3. NIH PPG, (Project 2 PI, Siracusa) Arming pulmonary macrophages for host defense. (Pending Council Meeting).

C. Patents Held

- 1. Carbonic anhydrase enzymes for regulating mast cell hematopoiesis and type inflammation (granted, May 2020).
- 2. Neuromedin B negatively regulates type 2 cytokine-mediated inflammation (provisional patent submitted).

\* Secured a \$1M commercialization grant as the founder and president of NemaGen Discoveries to advance the IP generated at Rutgers by the Foundation Venture Capital Group (May 2020). NemaGen Discoveries will license Dr. Siracusa's technologies generated at Rutgers that identified Carbonic anhydrase 1 as a novel target to treat mast cell-mediated inflammation. These funds will support NemaGen's initial FDA application to employ novel carbonic anhydrase inhibitors to treat mastocytosis and severe allergic inflammation.

#### **PRESENTIONS:**

A. Scientific (Basic Science):

\*All scheduled speaking slots for 2020 have been canceled as a result of COVID-19

1. *Neuropeptides: regulators of helminth-induced inflammation.* Univestiyf o Machester Immunology Seminar Series. (Invited speaker), Manchester, UK. (May 2021). \*virtual seminar (COVID-19)

2. *Neuropeptides: regulators of helminth-induced inflammation.* University of Edinburgh. (Invited speaker), Edinburgh, UK (Sept. 2020). \* virtual seminar (COVID-19)

3. *Type 2 immunity: protecting the barrier*. Molecular and Cellular Biology of Helminths IX meeting. (Invited speaker), Hydra, Greece (September 2020). \*Canceled as a result of COVID-19 – rescheduled Sept. 2022.

4. New approaches to combating food allergy. Division of Allergy and Immunology, Northwestern Feinberg School of Medicine. (Invited speaker), Chicago, IL (February 2020).

5. *Type 2 immunity: protecting the barrier*. Perelman School of Medicine, University of Pennsylvania. (Invited speaker), Philadelphia, PA (January 2020).

6. Host protective responses to helminths are supported by dual mast cell/erythrocyteprecursors. Keystone meeting, Helminths: New Insights from Immunity to Global Health. (Oral presentation), Cape town, South Africa (Dec 2019).

7. *Regulation of immunity and inflammation at mucosal sites.* Center for Host-Parasite Interaction, McGill University. (Invited speaker), Montreal, Canada (November 2019).

6. Analysis of metabolic enzyme expression reveals the presence of a mast cell/erythrocyte precursor cell. The New Jersey Health Foundation. (Invited speaker). Princeton, NJ (March 2019).

8. Developing novel strategies to treat mast cell-mediated inflammation. Division of Allergy and Immunology, Northwestern Feinberg School of Medicine. (Invited speaker), Chicago, IL (August 2019).

9. Neuropeptides: regulators of immunity and inflammation. Office of Research and Economic Development, Rutgers University. (Invited speaker), Piscataway, NJ (May 2018). 10. Infiltrating monocytes promote host survival by preventing helminth-induced brain inflammation. Annual Woods Hole Immunoparasitology Meeting. (Oral presentation), Woods Hole, MA (Aprils 2018).

11. Targeting Carbonic anhydrase enzymes to treat allergic inflammation. The New Jersey Health Foundation. (Invited speaker), New Brunswick, NJ (May 2018).

12. Targeting mast cell development as a novel approach to combat allergic inflammation. The New Jersey Health Foundation. (Invited speaker), New Brunswick, NJ (August 2017).

*13. Regulation of immunity and inflammation at mucosal sites.* Division of Allergy and Immunology, Northwestern Feinberg School of Medicine. (Invited speaker), Chicago, IL (April 2017).

14. Developing novel strategies to treat mast cell-mediated inflammation. Microbiology and Immunology, The University of British Columbia. (Invited speaker), Vancouver, Canada (April 2017).

15. Regulation of immunity and inflammation at mucosal sites. Chemistry and Biochemistry, Montclair State University. (Invited speaker), Montclair, NJ (October 2016).

16. Regulation of immunity and inflammation at mucosal sites. The Child Health Institute of New Jersey, Robert Wood Johnson University Hospital. (Invited speaker), New Brunswick, NJ (October 2015).

17. *In situ hematopoiesis-derived mast cells promote protective immunity to Trichinella spiralis.* Molecular and Cellular Biology of Helminths IX meeting, (Oral presentation), Hydra, Greece (September 2015).

18. Developing New Strategies to treat mast cell-mediated inflammation. The New Jersey Health Foundation. (Invited speaker), New Brunswick, NJ (August 2015).

19. The Center for Immunity and Inflammation.

The New RBHS: A new level of excellence for Biomedicine in New Jersey, (Invited speaker) Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ (May 2015).

20. Regulation of immunity and inflammation at mucosal sites. Johns Hopkins Bloomberg School of Public Health. (Invited speaker), Baltimore, MD (April 2015).

21. Regulation of immunity and inflammation at mucosal sites. McMaster University, Michael G. Degroote School of Medicine. (Invited speaker), Hamilton, Canada (April 2015).
